

We're looking for JavaScript developers to join our team. Yes, similar/better libraries (e.g. svelte, angular, mithril) are also great, and we are good at internal cross-training. The projects available right now are with clients with strong tech, based in Singapore.

As a member of the CoderPush team, you will help shape a remote-first workplace with full-timers and part-timers from Saigon, Hanoi, and the US.

## **WHO WE ARE**

CoderPush is a studio of engineers and designers who collaborate with clients for great software, teams, and processes.

We are a young team, so you can contribute to the client experiences we are creating. Reviews and testimonials [are on Clutch](#).

## **WHAT YOU'LL WORK ON**

We want to be coworkers for years to come, but projects that are available immediately include location-aware recommendations apps, digital signature tools, real-time IoT device dashboards, and online learning class management applications.

## **WE ARE LOOKING FOR SOMEONE WITH**

- Good communication skills in English and Vietnamese is must
- 4+ yoe with Nodejs and VueJs
- Humility to learn what you don't know, everyday.
- Ability to understand and define all actions to be performed when assigned to a task.
- Ability to manage time when facing difficulties or under pressure or deadlines.
- Codemunication skills. For example, do not have long-lived branches and love updating your PR descriptions for the sake of self and others.

## **BENEFITS**

- Full-time insurances and benefits.
- Salary \$1.5k- 2.5 k gross for fullstack developer
- Performance-based bonuses tied to project deliverables.
- Sponsorships to take part in sports and tech activities.

## **OFFICE**

We are remote-first, it means working remotely does not make you less important or boring. But people who love office still get the great office experience at:

- Address: the Hive, 94 Xuân Thủy, Thảo Điền, Quận 2, Thành phố Hồ Chí Minh 713385, Vietnam
- HN Office: Kyushu Villa A3, 73 Vạn Bảo, Ngọc Khánh, Ba Đình, Hanoi

## **OUR HIRING PROCESS**

- Round 1 technical interview → Take-home Technical Challenge → Meet Project Lead → Meet Project CTO → Offer ( We can reduce some rounds depending on current situation)
- Every single round is in English, we would appreciate if you could please:
- Ensure a good internet connection
- Use Laptop/PC and turn on the camera
- Screen sharing is enabled and tested once
